SIENA HEIGHTS UNIVERSITY

Bachelor of Applied Science

MICHIGAN'S PREMIERE APPLIED BACHELOR DEGREE PROGRAM

The Bachelor of Applied Science Degree (BAS) is a career-oriented degree designed for professionals with allied health or technical training, Associate of Applied Science Degrees, or graduates of two-year occupational programs. The BAS Degree is structured on the "inverted major" concept which builds an individually designed academic degree program around the allied health, technical, or occupational "major" you have already completed.

Each BAS student develops a customized degree plan appropriate to his or her education and future goals. Students receive no additional training in the major from Siena Heights University, instead they complete their bachelor's degree by taking liberal arts classes and other course work appropriate to their prior learning and future goals.

The BAS is appropriate for majors in:

ALLIED HEALTH PROFESSIONS

For individuals in such fields as radiologic technology; radiation or respiratory therapy; dental hygiene, massage therapy, nursing, diagnostic medical sonography, EEG technology, nuclear medicine, medical laboratory, and other allied health professions.

TRADE & INDUSTRIAL PROFESSIONS

For individuals in such fields as nuclear technology, architectural technology, automotive technology, drafting design technology, mechanical engineering technology, electronic engineering technology, or electrical, industrial or manufacturing technology.

SPECIALIZED OCCUPATIONAL PROFESSIONS

For individuals in such fields as computer tech/info systems, hospitality management, radio/television broadcasting, office systems administration, or sign language interpreters.

PUBLIC SAFETY PROFESSIONS

For individuals in such fields as public safety studies, fire science technology, corrections/law enforcement, hazardous materials, or homeland security.

Classes that work for you

For students that work, flexible class times and formats are key to making degree completion work. Siena Heights has a flexible, innovative approach to education that offers traditional evening and weekend classes as well as online classes in blended and completely online formats.

An academic advisor will walk you through your class schedule and help determine which format will fit your personality and lifestyle. Then if life changes, don't feel that you are locked into any one format. Our students often find themselves switching between all of the options that we offer depending on the time of year.

Why Siena?

OUR DISTINCTIONS

- **Designed for You**—The BAS is designed specifically for AAS grads/professionals with allied health, technical, public safety, and selected occupational backgrounds.
- **Major Specific**—Your specialized AAS major transfers to Siena Heights University as your Bachelor degree major.
- **Transfer Friendly**—Transfer up to 90 credits toward your 120 hour Siena Heights degree from your AAS program, other college study, or approved technical, trade and hospital based schools.
- **Non-Traditional Credit**—Credit may be awarded from college-equivalent military, corporate or professional training, work-experience, CLEP and DANTES exams, and/or four year apprenticeships.
- **Well-Rounded Education**—Through our liberal arts curriculum the BAS Degree builds on your specialized applied science major and broadens your intellectual horizons.
- **History**—The BAS program has more than 30 years of proven student satisfaction, employer acceptance and graduate program transferability.

SEVERAL TRANSFERABLE AAS MAJORS

Airframe/Powerplant Technology
Automotive Technology
Aviation Flight Technology
Collision Repair
Computer Information Systems
Computer Technology
Corrections
Dental Hygiene
Diagnostic Medical Sonography
Drafting and Design Technology
EEG Technology
Electronic Engineering Technology
Energy Technology
Fire Science Technology
Hospitality Management
Industrial Technology
Interior Design
Law Enforcement
Manufacturing Technology

Mechanical Engineering Technology
Medical Assisting
Medical Laboratory Technology
Nuclear Medicine
Nuclear Technology
Nursing
Office Systems Administration
Paralegal Technology
Paramedic Technology
Radiation Therapy
Radio and TV Broadcasting
Radiologic Technology
Respiratory Therapy
Sign Language Interpreters
Surgical Technology
Welding

*Siena Heights University accepts many AAS degrees not listed above. Contact a Degree Completion Center for more information.

Andrew Rogers

PREPARING FOR THE FUTURE
LIEUTENANT,
GROSSE POINTE FARMS PUBLIC SAFETY

“When a fellow firefighter mentioned that Siena offers completely online learning and grants credit for prior work experience/certifications I was hooked. I did my research on other distance learning schools prior to enrolling at SHU. All the other schools had something I did not like; mandatory in school attendance dates, rushed classes, outrageous tuition. SHU was the best total package that I could find.”

Meeting You Where You Are

Siena Heights is a Catholic, coeducational university founded in the liberal arts tradition by the Adrian Dominican Congregation in 1919. The main campus in Adrian enrolls about 1,200 students in full-time and part-time study leading to associate's, bachelor's and master's degrees.

A leader in non-traditional education, and accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, Siena Heights has over 30 years of experience providing service-oriented education for working adults. Siena was the first private liberal arts college in Michigan to offer degree completion programs designed specifically for adult students. In addition to our completely online program, Siena Heights University operates degree completion centers throughout Michigan.

Graduate College

Graduate education is an integral part of Siena's mission: to assist people to become more competent, purposeful and ethical. Graduate College challenges individuals to identify, refine and achieve their personal goals, and to articulate a personal philosophy of life. All in the context of its mission of integrating theory into practice. Siena Heights offers a Master of Arts in Counselor Education, Education, and Leadership as well as a Specialist of Arts in Education Leadership.

Online Cohort Program

Siena Heights University's NCA-Accredited Online Bachelor of Applied Science (BAS) Cohort Program is designed for students to complete their degree completely online as a cohort, or group, benefitting from the experiences of other cohort members.

Students complete 30 semester hours or 10 courses by attending classes in an online format over a period of 20 months. Each course runs one at a time, every 8 weeks. Participants log-in to the online delivery system, eCollege, via the Web. Course work, assignments, and threaded discussions can be accessed at any time and from any location where Web access is available.

The cohort program is also available in a blended-online format at our degree completion centers in Ann Arbor and Port Huron.

For more information visit our website at www.sienaheights.edu.
