April 2017

This is a special edition of HACC Connections. We plan to publish this e-newsletter six times per year. We hope you enjoy the issues. Please contact us at foundation@hacc.edu to share feedback and ideas with us. Thank you!

Thank You for Supporting HACC’s 2017 Day of Giving!

On April 20, HACC’s 2017 Day of Giving, we raised funds for the College and our students. The funds raised support the four priorities of the HACC Foundation’s Invest. Impact. Inspire. Campaign for HACC.

Final totals are still being calculated. For additional updates, please visit hacc.edu/HeartHACC.

Thank you for helping to make a BIG impact for our students!
Helping HACC Students Achieve a Promising Future

Millard Freysinger was born in New Cumberland, Pennsylvania in 1925. With the exception of the time he spent in the U.S. Navy, he was part of the Central Pennsylvania community for his entire life. Millard passed away in 2015 following a short illness.

Harrisburg natives may recognize the Freysinger family name from its successful automobile dealerships. In 1923, Millard’s father and mother, Wayne and Lena, started an automotive service center and gas station in a garage built by Lena’s father, Jacob Weir Millard, on Bridge Street in New Cumberland. After initially selling Dodge vehicles, Wayne began selling Pontiacs in 1936.

As soon as he was old enough, Millard began working with his parents. The business flourished and was successful. After Wayne passed away in 1975, Millard became head of the company. Eventually, office staff took over the bookkeeping and office work that Lena handled for many years. In 1988, Freysinger Pontiac moved to the Carlisle Pike in Mechanicsburg. In 1991, Mazda, Mitsubishi and Hyundai franchises were purchased. Mitsubishi was sold in 1994. Buick and GMC were purchased in 1999. Today, Freysinger Inc. sells a wide variety of new and pre-owned cars, trucks and sports utility vehicles. A body shop, service department and pre-owned car lot are still in operation at original locations in New Cumberland.

Millard loved his business, traveling, sports and his family. He and his wife, Barbara, had eight children, 15 grandchildren and three great-grandchildren. Millard believed in sacrifice and hard work as the way to achieve success. He also believed in giving back to his community. According to their children, Barbara and Millard were humble. “They didn’t talk a lot about making donations. They just did it.”

HACC is grateful to the Freysinger family for supporting HACC’s automotive technology program through its establishment of the Millard C. Freysinger Scholarship Endowment and for supporting the College’s nursing program through its establishment of the Barbara Lee Anderson Nursing Education Scholarship Endowment. Funds for an automotive repair bay in HACC’s Transportation Technology Training Center were donated by Millard, and the repair bay is named for Millard’s parents, Lena and Wayne. For many years, Freysinger Inc. also sponsored HACC’s Frank J. Dixon Tournament for Scholarships. The Freysinger family believes in supporting students, thereby enabling those who may not otherwise be able to afford an
education to earn a college degree. They understand that HACC is a cultural and educational hub for the region and are impressed by the diversity of HACC’s students, including nontraditional students, veterans and people returning to the workforce.

Because Millard was impressed with HACC and its mission, programs and facilities - particularly in the automotive field - he looked favorably upon HACC graduates and was happy when he interviewed them for positions at his dealership. Freysinger Inc. values what HACC does and seeks out HACC graduates. Millard always made a point of attending the HACC Foundation’s scholarship awards programs so that he could talk with the recipients of his scholarship. He liked to hear about the students, their backgrounds and interests and how the scholarships helped them.

Barbara Freysinger also appreciated HACC and often went to the College to listen to visiting lecturers, attend cultural events and take adult education classes. The Barbara Lee Anderson Nursing Scholarship was established in her memory after she passed away in 2006. Barbara graduated from the Harrisburg Hospital School of Nursing and practiced as a nurse in various agencies in the Harrisburg area.

When asked “Why HACC?” the Freysinger family replied, “Contributing to the HACC Foundation is a lasting way to give back. We are investing in a future from which we can all benefit. It’s nice to know that the nurses and automotive technicians who take care of us have the requisite skills and knowledge as a result of their education at HACC. For any business or industry, it’s a smart investment to ensure that the labor market has workers who understand technology. HACC teaches students the technology that is required and the skills they need to get in-demand jobs.”

The Freysinger family values HACC’s commitment to job training, technology, liberal arts, critical thinking and problem solving.
Local Financial Services Provider Invests in Future EMT’s

Cornerstone Adminisystems, Inc. has invested in future employees of the industry they serve. The company has been delivering comprehensive billing, compliance and revenue cycle management to emergency medical services (EMS) and ambulance organizations since 1994. Based out of Lemoyne, Cornerstone’s 100-percent employee-owned model means a shared stake in the company’s success and basis on a firm belief in staying ahead of the curve through investing in their people and processes. Now, the company has expanded this model of investing in people and the future with HACC.

The HACC Foundation’s newly established Cornerstone EMT Scholarship Award will provide financial assistance to HACC students enrolled in the Emergency Medical Technician program or the Advanced Emergency Medical Technician program. The fund will provide up to eight scholarships per year, lending to HACC’s mission to “Create opportunities and transform lives to shape the future – TOGETHER.” Financial assistance makes it possible for students to reach their educational goals and improve the lives of individuals, their families and the community.

This fund recognizes Cornerstone’s continued commitment to serving EMS and ambulance organizations through supporting HACC students.

HACC Foundation Receives PNC Grow Up Great Funds

In November 2016, the HACC Foundation received $8,482 from the PNC Foundation’s Grow Up Great program. The HACC Foundation will award eight scholarships from the PNC Grow Up Great Scholarship Award fund by Aug. 1, 2017.

Students who receive these scholarships must have low-to-moderate income and must be pursuing a childcare credential at HACC. HACC offers two educational tracks for students who are interested in entering the childcare profession. Upon successful completion, one program leads to an early childhood care and education certificate, and the other leads to an early care and education associate in arts degree. Students who complete this program of study can transfer to a four-year college or university and may choose to work in a childcare center to help pay for college.

HACC is proud to empower our early childhood education students to become great teachers who help their future young students to Grow Up Great.
HACC Foundation Allocates $136,361 for HACC Programs and Projects

The HACC Foundation recently provided funding for key projects at HACC, Central Pennsylvania’s Community College, including funding to update the York Campus automotive laboratory.

The HACC Foundation, a nonprofit organization that raises private contributions in support of HACC, approved $136,361 for projects at the College. This funding is made possible through generous contributions from individual and organizational donors.

The HACC Foundation funded the following projects:

<table>
<thead>
<tr>
<th>Purpose of HACC Foundation Funding</th>
<th>Benefit to Students and College</th>
<th>Funded Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>York Campus Auto Lab NATEF Accreditation Upgrades</td>
<td>Funding was provided to update the York Campus automotive laboratory to meet the National Automotive Technicians Education Foundation (NATEF) standards.</td>
<td>$89,000</td>
</tr>
<tr>
<td>iPad Pro and Accessories for Demonstration of and Student Practice on Adobe Creative Cloud Mobile Apps</td>
<td>Funding for tablets and accessories was provided for faculty members to demonstrate Adobe application and make student practice available.</td>
<td>$1,346</td>
</tr>
<tr>
<td>Zoom Video/Audio Recording Field Kits and Canon Video Recording Field Kits</td>
<td>Funding for cameras and kits was provided to replace unserviceable equipment. The cameras will be provided for student usage in several multimedia classes.</td>
<td>$6,028.22</td>
</tr>
<tr>
<td>Supporting Men of Color in the Community College</td>
<td>This funding will support the Men of Color initiative at HACC, which is focused on connecting new male students of color with seasoned students for peer mentoring. In addition, the initiative is focused on leadership development and special events for male students of color.</td>
<td>$12,000</td>
</tr>
<tr>
<td>Central Dispatch Public Safety</td>
<td>Funding was granted to establish a central dispatch as the single</td>
<td>$23,355</td>

</tbody>
</table>
### Purpose of HACC Foundation Funding | Benefit to Students and College | Funded Amount
---|---|---
| Public Safety answering center for all HACC campuses. | E-Learning Conference | $2,451
Funding was provided for a HACC faculty member to attend a conference and increase knowledge related to online education and retention. | HIST 218 Academic Field Trip | $180.80
Funding was provided to support an academic field trip to the U.S. Holocaust Memorial Museum. | 2017-18 Inclusion and Diversity Innovations Awards | $2,000
Funding was provided to engage students in submitting entries related inclusion and diversity awards and providing monetary awards for the top entries. | **Total:** | **$136,361.02**

### Preparing Our Students With Skills for the Future

While many parents and students consider four-year degrees for their education, employers are seeking employees with technical skills. HACC is playing an integral part in the development of employees with these skills throughout its service region.

Recently, Victor Rodgers, HACC’s associate provost for workforce development, appeared on Smart Talk. The discussion centered on the shortage of workers in manufacturing, mind-set of future students and education process of students hoping to enter skilled trade careers such as carpentry, HVAC, mechatronics and welding.

Students can often complete the technical skills training required to fulfill these high-demand positions within 18-24 months. By completing the training in a short amount of time, students can enter the workforce much more quickly than those students who are seeking four-year degrees. Often times in today’s workplace, those who have obtained four-year degrees are searching for employment. The students who complete the training through HACC’s workforce development programs usually find employment shortly after completion and sometimes even before they complete the training.

Lancaster Students Will Receive Assistance from DDMP Investment Advisors Scholarship Fund

DDMP Investment Advisors recently established a scholarship fund that will benefit students who are enrolled full time at the Lancaster Campus and who have a minimum GPA of 3.0. Many students are concerned about repayment of college loans after graduation. Scholarship assistance is one way businesses like DDMP Investment Advisors help students reduce the need to incur debt.

James McCurdy, branch manager, along with associates Sean Dolan, Todd Dellinger, John Phillips and Randy Trostle are the staff of Dellinger, Dolan, McCurdy & Phillips (DDMP) Investment Advisors. DDMP Investment Advisors is an independent firm founded on the principal that each person deserves personal, proactive service when it comes to managing financial resources for long-term goals.

Many of our students struggle to afford an education. Scholarships such as these change the lives of recipients, supporting HACC’s mission to create opportunities and transform lives to shape the future - TOGETHER.

Jessica Shingara, a HACC student and scholarship recipient, said, “I was awarded a scholarship, and it has been such a blessing. It's hard when a person feels like they have to choose between making money or continuing their education, and I know I'm not the only one with that struggle. When I was awarded the scholarship, I felt an immediate sense of relief.”

Recipients of the DDMP Investment Advisors Scholarship Fund will be able to make similar comments when the scholarship is awarded for the first time.
To contribute to the HACC Foundation, please visit www.hacc.edu/givenow.

HACC Grads Earn High Scores on National Credentialing Exams in Health Careers

Graduates of HACC’s health career programs are superstars, passing national exams with flying colors at the top of their field – often with 100-percent pass rates.

A look at the national rankings achieved by students in health career programs at HACC include the following programs.
Cardiovascular Technology Programs
In the 2015-16 academic year, graduates of HACC’s Cardiovascular Technology (CVT) Programs had a 95 percent pass rate. CVT programs include Invasive Cardiovascular Technology and Cardiac Sonography.

Dental Assisting and Dental Hygiene Programs
Graduates of the Class of 2016 in HACC’s Dental Assisting Program achieved these pass rates on the Dental Assisting National Board certification exam:
- General Chairside – 100 percent
- Infection Control – 100 percent
- Radiation Health Safety – 95 percent

The 2016 graduates of HACC’s Dental Hygiene Program also had a 100-percent pass rate on the National Board Dental Hygiene Examination administered by the Joint Commission on National Dental Examinations.

Diagnostic Medical Sonography Program
Diagnostic Medical Sonography Program graduates in 2016 passed the sonography principles and instrumentation test, the abdomen test and the OB/GYN test at 100 percent. Because of this achievement, they were all registered diagnostic medical sonographers upon graduation, and all were employed within two months. The national average for passing the three tests is 70 percent.

Medical Assisting Programs
The exam pass rate for both the Medical Assisting degree and certificate programs was 100 percent for students who entered in 2015 and graduated in 2016. In February 2017, HACC received accreditation to expand the program to the Gettysburg Campus.

Medical Lab Technician Program
Graduates of HACC’s Medical Lab Technician Program in 2015-16 had a 100-percent pass rate on the American Society for Clinical Pathology (ASCP) board certification exam.

Nursing Programs
Graduates of HACC’s Registered Nursing (RN) and Practical Nursing (PN) programs also had high pass rates. In 2014-15, the first-time pass rates for the National Council Licensure Examination were 85.88 percent for RNs and 93.8 percent for PNs. In 2015-16, the first-time pass rates for HACC graduates was 89.23 percent for RNs and 92.65 percent for PNs.

Respiratory Therapist Program
Graduates of HACC’s Respiratory Therapist Program have a three-year average of a 95 percent pass rate – the highest pass rate in Pennsylvania – on the credentialing exams for the designation of Registered Respiratory Therapist (RRT). HACC’s outstanding success was recognized in June 2016 by the national Commission on Accreditation for Respiratory Care (CoARC) with its Distinguished RRT Credentialing Success Award.
Surgical Technology Program
The Surgical Technology Program’s Class of 2015 and Class of 2016 both have a pass rate of 100-percent on the National Board of Surgical Technology and Surgical Assisting’s credentialing exam for Certified Surgical Technologist.

HACC’s commitment to providing high-quality academics and preparing students for a rewarding career is one of the reasons why graduates of HACC’s various health career programs score high on national credentialing exams.

The Gifts Foundation Workforce Development Scholarship Award

The Gifts Foundation Workforce Development Scholarship Award was recently established by Dr. Rukhsana Rahman and Mr. Athar Rafiq, a married couple who reside in the Gettysburg area, to provide one scholarship per academic year for students enrolled in noncredit workforce programs resulting in a certificate or credential. Students who apply for this scholarship must be residents of Adams County. Additionally, students must submit an essay describing their financial need and how obtaining the scholarship will help them reach their educational and professional goals. The scholarship award can be applied to tuition, fees, books, and/or program expenses.

Who are Dr. Rukhsana Rahman and Mr. Athar Rafiq? Dr. Rukhsana Rahman has been a radiologist at Gettysburg Hospital for 25 years. She was born in London. Dr. Rahman has lived on three continents but now calls Gettysburg home. She is a member of the American College of Radiology, Penn Medical Society and the Adams County Medical Society. She is a member of the board of directors of the YWCA and has volunteered on the YWCA’s Hallmark and Mission Committee. Dr. Rahman has developed and assisted with programs dedicated to the YWCA’s mission of eliminating racism during the past five years. Since leaving full-time work in 2005, Dr. Rahman has helped in the ESL class at James Gettys Elementary. Mr. Athar Rafiq is a computer consultant who works at Howard Community College. Mr. Rafiq co-hosts Saturday computer classes at a local church to provide students with skills and support. He has assisted many students with interview skills, resume writing, networking and employment.

In 2016, Dr. Rahman and Mr. Rafiq were awarded the annual community Living the Dream Award, which is given by the Dr. Martin Luther King Celebration Committee in Gettysburg, to those who impressively answer Dr. Martin Luther King's question: "What are you doing for others?" The establishment of this scholarship provides more credence to the couple receiving the Living the Dream Award, as it absolutely helps others and answers the question “What they are doing for others”. The question you should ask yourself is what are you doing to help others?

Dr. Rahman and Mr. Rafiq are certainly doing for others and should serve as an inspiration to us all.
Five Campuses, One College

Gettysburg Campus - HACC’s Gettysburg Campus Meets Growing Demand for Medical Assistants

With a growing demand for medical assistants in Central Pennsylvania, the Gettysburg Campus has expanded its offerings to include Medical Assisting Certificate.

On April 6, the Gettysburg Campus invited the public to join a grand opening celebration. From 5:30-7 p.m., the public was able to:

- Enjoy a ribbon cutting in partnership with the Gettysburg-Adams Chamber of Commerce and light refreshments
- Hear details about the program from campus and certificate program leaders, community healthcare partners, alumni and current students
- Watch student demonstrations that include checking vital signs, carrying out simple lab tests and performing intradermal, intramuscular and subcutaneous injections on demo injection pads
- Attend an information session to learn about enrolling into the Medical Assisting Certificate Program and obtaining financial aid

Among the presenters were:

- Shannon Harvey, vice president of HACC’s Gettysburg Campus
- Joel Bacon, associate professor and director of HACC’s Medical Assisting Program
- Tammy Newcomer, director of learning solutions and workforce development at WellSpan Health
- Stacy Orndorff, physician office clinician at WellSpan Internal Medicine - V-Twin Drive; alumna of HACC’s Medical Assisting Certificate Program
- Dena Lawyer, physician office clinician at WellSpan Family Medicine – Littlestown; alumna of HACC’s Medical Assisting Certificate Program
- Alexandra Nunez, student in HACC’s Medical Assisting Certificate Program

Ms. Harvey said, “The growing demand for medical assistants prompted HACC to expand its Medical Assisting Certificate Program to HACC's Gettysburg Campus in 2016. The shortage of medical assistants in south-central Pennsylvania is significant, with hundreds of unfilled positions. The projected growth rate for medical assistants over the next five years is 23 percent compared to the growth rate of seven percent for all other occupations. In less than six months, we were able to respond to this need and develop the program.”

Students can complete the program at HACC’s Gettysburg Campus in less than one year. The 37-credit program offers students the foundational skills in medical office administration and clinical patient care that is required for practicing in the field. Additionally, students learn the legal and ethical principles governing medical practice, and they are prepared to take the national Certified Medical Assisting exam.
Ms. Harvey said, “In launching the program, community support was critical, because students need shadowing and externship opportunities. Gettysburg Family Practice responded by providing shadowing experiences for students during our fall 2016 term. We are grateful for their support and the support of our community organizations.”

The program opened in August 2016 and was accredited by the Commission on Accreditation of Allied Health Education based upon the recommendation of the Medical Assisting Education Review Board in February 2017.

The application deadline is May 31 for fall 2017 classes, which begin the week of Aug. 28.

**Harrisburg Campus - Artwork by HACC Students Featured in Honors Exhibits**

Art students will display their best work in two shows at the Rose Lehrman Art Gallery on HACC’s Harrisburg Campus in April and May.

The first show from April 6-20, 2017, featured student works of photography, computer art, digital photo imaging, three-dimensional and two-dimensional design, illustration and printmaking. The show concluded with a reception for the artists on April 20 from 5:30-7 p.m.

From April 26 through May 10, the gallery will feature graphic design, drawing, painting, glass, ceramics and jewelry work from HACC students. A reception for the artists will be held on May 4 from 5:30-7 p.m.

Students submitted 400 works for consideration. Pictured above is “Harmony” Screenprint by Catherine Lantzy. Art faculty juried the submissions and selected the best works for each section of the honors exhibit. Awards will be presented during both receptions.

All gallery events are free and open to the public. Gallery hours are 11 a.m.-3 p.m., Monday through Friday, and 5-7 p.m. Tuesdays and Thursdays, or by appointment.

More than 250 students at HACC currently major in art. The College offers courses in traditional media such as painting, drawing, photography and ceramics. Other courses include glass blowing, jewelry and typography.

For more information about the exhibits, please contact Shawn Williams at 717-780-2478 or smwillia@hacc.edu.

**Lancaster Campus - HACC’s Lancaster Campus Hosts 17th Annual Job Fair**

Job seekers and career changers in the Lancaster area were recently invited to attend the free public job fair to meet with industry leaders and find out about jobs and internships. Many
employers offer on-the-spot interviews for full-time or part-time positions, entry-level or professional positions and internship and mentoring opportunities in a range of professions. Job seekers were encouraged to dress professionally and bring résumés in order to be prepared for on-the-spot interviews.

**Lebanon Campus - “Personal Passages” Lecture with Steve Perrault, International Contemporary Realism Artist**

On April 18, an international artist, Steve Perrault, shared an invigorating lecture and slide presentation on his artwork. Steve holds graduate degrees in theology, clinical psychology, and art education. He also studied at Parson’s School of Design in New York City. His education and work history creates a mysterious connection and deep appreciation of the incongruent aspects of life.

Born and raised in Minneapolis, at age 17, Steve entered Catholic seminary. For 13 years, he lived in the context of seminary and monastic life. He worked in multiple ministerial settings, including three years as chaplain of a New York State County Jail. This was followed by 10 years in clinical work as a psychotherapist in Chicago. These experiences provided Steve with the opportunity to experience exterior (environmental/architectural) and interior (psychological/emotional) light and darkness, containment and expansion. He has been a full-time painter since 1998.

Steve’s work resides in collections around the world, including the Smithsonian and the Environmental Protection Agency National Headquarters, and those of private collectors such as Academy Award-winning film director William Friedkin (*The French Connection* and *The Exorcist*) and Sherry Lansing, Paramount Pictures chair emeritus. In addition to being featured in more than 50 national and international publications, Steve has been a finalist in *The Artist’s Magazine*’s annual “Best Art” competition for an unprecedented nine straight years and was a subject on NBC’s *Dateline* television program. Steve is represented by galleries in Houston, London, Los Angeles, New York and Zurich. Pictured to the left is *The Center of Yourself*.

Perrault’s paintings are instantly recognizable, each with its architectural space opening to the natural landscape and its iconic red bench or red architectural element. Every picture stands alone and draws the viewer in with its beauty and powerful serenity. But the real power of Perrault’s artistry is evident in the whole body of his work. From canvas to canvas, the color and direction of the light change, the interior architectural shapes are altered, the landscape is challenging or benign. Every image carries its own meaning and mood, and it is clear that
Perrault’s meditative journey is rich and authentic and alive. To learn more about Steve Perrault’s work, please visit www.sjperrault.com

York Campus - Tree Dedication

On March 30, two trees were dedicated outside the Goodling Center on HACC’s York Campus. HACC President Dr. John J. “Ski” Sygielski, York Campus Vice President Dr. Darryl Jones and several York Campus employees were on hand for the celebration.

The 2016 Student Government Association (SGA) purchased a Diane Witch Hazel tree. Errol Wizda, campus director of student development, and several students represented the SGA.

The Virtual Learning Student Advisory Council (VLSAC) purchased a Prairiefire Crabapple tree. Jazmin Simpson, student success manager, and Amy Withrow, executive director for Virtual Learning, represented the VSLAC.

Sincere thanks to these organizations and others who purchased trees at the York Campus. If you are interested in purchasing a tree, please go online for more information.

Why Giving to Charity is Good for Business

Please read the following article to see why giving to charity is not only philanthropic but good for business:

We appreciate your support of HACC and the HACC Foundation!

To make a tax-deductible contribution to the

HACC Foundation, please visit:

www.hacc.edu/givenow

Thank you!
Invest. Impact. Inspire. Campaign for HACC Totals

The Invest. Impact. Inspire. Campaign for HACC kicked off in August 2015. For the first year of the campaign, the HACC Foundation has focused on raising funds from HACC’s employees, retirees, alumni, board members and students.

We are receiving contributions on a regular basis. Therefore, the fundraising totals change often. For the latest information, please visit www.hacc.edu/campaign.

Stay Connected with Email Alerts from HACC’s Online Newsroom

Keep up with HACC news through email alerts! You can choose to receive all of HACC’s news releases as they are posted to the online newsroom, or select the subjects of particular interest.

Here is how to sign up for the alerts on your computer:
1. Open a browser window (Internet Explorer, Firefox, Chrome, Safari, etc.)
2. Go to HACC's online newsroom - click on the link below or copy and paste this URL into browser window: http://newsroom.hacc.edu/
3. Scroll to bottom of the screen
4. Select the link Email Alerts under Shortcuts
5. Select the Register Me box if you are not a registered user. Follow instructions on the page. Note: your registration will be accepted within 24 hours. Skip this step if you are already a registered user.
6. Log in with your User ID and Password, if you are already a registered user. If you are not a registered user, select the Register Me box and follow the instructions (Allow 24 hours for registration).
7. Follow the instructions on the page by selecting your Notification Preferences
8. At the bottom, select Email Me.
9. Type in the security letters that you see inside the box below the letters
10. Select Submit

Note: You will begin to receive emails from the newsroom about the topics you selected. It will include the name of the news release in the subject line of your email. The body of the email will have the news release title, dateline, an article abstract and a link to the full release in HACC’s online newsroom.
