HACC and the Commonwealth of Pennsylvania will once again be hosting Central Pennsylvania Geographic Information Systems (GIS) Day at HACC Midtown 2 on **Wednesday November 19 from 9:00am-7:00pm**. Please join the HACC geospatial technology program and its partners in this day long conference to learn how GIS technology is leveraged in various industries as well as how to use some simple GIS tools in your classes or your everyday life. In addition to hourly concurrent sessions, there will also be an exhibit hall where GIS companies, nonprofits, and state and county agencies will be showcasing their GIS projects.

Please encourage your students to attend this very exciting high energy day! There are a number of hands-on sessions where they can learn how to apply GIS to their major area of study.
