Greetings Lancaster Campus Colleagues!

Welcome to the spring semester! Thank you for your patience and understanding during the inclement weather we experienced in Week one of the semester. Let us hope for warmer weather and no more interruptions to the semester!

Last week, I had the pleasure to have dinner with the Feakins Foundation, a group whose mission is to provide financial support for Dreamers, undocumented youth, to attend college. The dinner I attended was to honor the first group of Feakins Foundation scholarship recipients. Two out of the three scholarship recipients are current HACC students. There were also many other HACC connections at this dinner, either graduates of HACC or spouses or relatives who have attended HACC.

You may remember Carlos Gonzalez, HACC class of 2011. He currently serves on the Feakins Foundation’s Board and is also the current Statewide Capacity Building Coordinator for the Pennsylvania Immigration & Citizenship Coalition. Carlos came to HACC as a Dreamer and has gone on to attend Amherst College and also hopes to attend Widener Law School. Carlos’ success proves that the future is bright for all our students due to the excellent education and service you provide. I applaud each of you for working to ensure that HACC is an open and welcoming place for everyone. Thank you for all that you do!

I hope that you have a great semester.

Victor Ramos, Campus Vice-President

Partnering for Student Success:

In mid-November Tutoring and Testing tutors and Timothy D. Smith, assistant director, joined several radiologic technology faculty members, including Sara Crill, Jennifer Kyle, Jonathan Choi, Amanda Oberlin, and Chrissy Everidge to provide writing conferences for students in RADT 101: Imaging Equipment. Tutors and faculty worked together to provide scientific writing support and feedback to students on their quality control test reports. Additionally, some students took advantage of additional scientific writing support in the tutoring center. Those students scored higher than their peers who did not take advantage of additional writing assistance. This initiative was conceived during a Center for Innovative Teaching Excellence (CITE) presentation by Tutoring and Testing. If you would like to partner with Tutoring and Testing, please contact Lori Corradino or Tim Smith in Main 232.
