Selected Responses to HACC’s Technology Literacy Outcome Assessment

- Work with Pearson (My IT Lab) to improve reporting capabilities
- Beginning Spring 2014, require every CIS105 class to use My IT Lab
- Study CIS105 passing rates in comparison to overall HACC passing rates
- Consider a math prerequisite for CIS105 to support the demands of Excel
- WEB 230: strengthen assignment related to frame-by-frame animations
- Welding: Experiment with "foreman" roles using email for information relay

- Strengthened use of technology in course projects
- MAT 202: Requirement that students use statistical software in producing displays
- Cross-disciplinary faculty team tentatively identified for next assessment cycle
