**Description & important information about the Graphic Design Programs (pg 2) and transfer to SCAD (pg 3) on following pages.**

## Description and Important Information

### VISUAL ARTS – GRAPHIC DESIGN, Associate in Arts Degree (#2840)

HACC is committed to high academic standards that reflect current trends in the field in order to prepare students for a career in graphic design. These standards are intended to assure high-quality experiences in small classes with access to new technologies and superior media and library support. As a result, this is a *Selective Program* and is only open to those who meet the entry criteria.

#### Entry Criteria for AA Degree Program (#2840):

- All students must first enroll in the Graphic Design Foundations (#2830) curriculum. (Enrollment in Graphic Design Foundations curriculum does not guarantee admission into program #2840.)
- Meet with a graphic design advisor, CASS division counselor or the graphic design program coordinator to get specific information about the graphic design program's entry criteria.
- Complete Art 105, 121, and 176 with a grade of "C" or better.
- Through coursework or testing, students must demonstrate readiness for ENGL 101 and Math 020. (Recommended 0-level courses must be passed with a grade of "C" or better.)
- Submit a portfolio of required artwork to the annual fall portfolio review. (Students in program #2830 will be contacted by letter regarding a portfolio information meeting in October.)
- Receive an acceptance letter.

**Students whose portfolios are accepted and who meet the above criteria are admitted into program #2840.**

Once accepted into program #2840, all graphic design curriculum courses must be taken without lapse between semesters, and in the required sequence. If a student drops or does not complete a graphic design curriculum course with a grade of "C" or better he/she is not eligible to remain in the program. Students must be able to enroll in a minimum of four classes (full-time status) after admittance into 2840.

Program #2840 is designed to lead directly to a career and is not intended for transfer. Any student interested in transferring to another school after completing HACC's graphic design program must contact the target school well in advance to determine their transfer requirements. While most of HACC's graphic design major courses are offered during the day, some courses are only available at night. All graphic design major courses are only available at the Harrisburg Campus. Some general education and foundation courses are available at the Lancaster, Lebanon and Gettysburg Campuses, and at other sites.

Graphic design students at HACC are trained to use industry-standard equipment and graphics software. Students will assemble a print and digital portfolio for job interviews that will demonstrate skills in illustration, photography, layout, design, web, and interactive media. Students are encouraged to take the elective Graphic Design Internship course to gain practical experience.

#### Career Opportunities

Job opportunities can be found as graphic designers in advertising agencies, design firms, newspapers, magazines, television stations, web and multimedia production companies, retail stores, printers, government agencies, and corporate in-house art departments.

#### Competency Profile

This curriculum is designed to prepare students to:

- Demonstrate mastery of skills required in the graphic design field
- Create an effective visual communication
- Operate computers and graphic software used in design, web and interactive media

- Present a professional portfolio
- Write and speak effectively
- Appreciate accomplishments in the arts and sciences
