

## Donald E. Enders Jr.

Business Administration, 1972

Don Enders, president and CEO of Enders Insurance Associates, is seriously committed – to his family, business, community and HACC.

Enders got his start in the family business at age 18, while also serving in the Pennsylvania Army National Guard. Soon, he added school to his busy schedule. After graduating from HACC in 1972, he continued his education at Penn State, earning a bachelor's degree and then later receiving Certified Insurance Professional (CIC) and Chartered Property Casualty Underwriter (CPCU) designations. Under his leadership, Enders Insurance Associates has grown to include four offices that serve a large client base in Central Pennsylvania and beyond. He knows the true meaning of work ethic.

In addition to his focus on Enders Insurance Associates, Enders continues to volunteer his time serving on the boards of the HACC Foundation, Keystone Human Services and Panther Ram Foundation. He is also chairman of the board of Centric Bank Financial Corporation and Centric Bank. In 2013, he was presented with the Edna Silberman Humanitarian Award, Keystone Human Services' highest award given to an outstanding citizen who has made significant contributions to the community. He has been intricately involved in the recent renewal and growth of the Panther Ram Foundation, which provides extensive support to the Central Dauphin School District.

To give back to his alma mater, Enders has served on the HACC Foundation Board since 2007 and is a member of the Foundation's Planned Giving Committee and the Joint Board Development Task Force. In 2010, he spearheaded the establishment of the Enders Family Scholarship Endowment at HACC. His company has been a consistent supporter of the Frank J. Dixon Tournament for Scholarships at HACC, and in 2014, Enders Insurance Associates was a sponsor for HACC's year-long 50th anniversary celebration.

### HACC Impact

*"HACC is known for its outstanding faculty. Even in the infancy of this institution, my experience was no different. My love of history and business was nurtured at HACC. I believe I have received an excellent education at HACC. From high school students, to individuals seeking a new career path, to retirees having a desire to learn for learning's sake, I am always excited to promote HACC as a valuable resource within our community!"*
