www.lancastergeneral.org/content/Nuclear_Medicine.htm

This is a selective and competitive admission program. Admission to the college doesn't guarantee admission to the clinical component of the program. You will be admitted as a pre-rad tech student and work with your advisor to apply to the clinical/core component of the program.

Minimum Criteria to Apply:

Students will be considered for admission into the Nuclear Medicine Technology program who have:

Human anatomy and physiology I and II, chemistry, physics, mathematics (at least college algebra), English composition and speech are prerequisites to the Nuclear Medicine diploma program and require a C or higher.

- 2.3 GPA
- Successful completion of: human anatomy and physiology I and II, chemistry, physics, mathematics (at least college algebra – MATH 103), English composition and speech with a C or higher
- Completed a shadowing experience

Advising: HACC students are advised by Sherrill Goodlive, Counselor/Nuc Med Advisor, Blocker Hall Room 221, Harrisburg Campus. Students are encouraged to attend one of several open houses offered yearly at Lancaster General College of Nursing and Health Sciences.

For appointments: (717) 780-1124

Shadowing: 4 hours minimum; 8 hours preferred

Application Deadline: January 15

ADDITIONAL REQUIREMENTS PRIOR TO STARTING THE CLINICAL PORTION OF THE PROGRAM AT LANCASTER GENERAL COLLEGE OF NURSING AND HEALTH SCIENCES

Prior to matriculation into a clinical course, students must complete the following:

- Criminal history information check and child abuse history clearance report. The applicant is responsible for submitting the forms with the required processing fees. The reports will be kept in a confidential file to meet regulatory requirements.
- Successful passing of a drug screening test as identified in policy 3.3 (Drug Free School).
- Certification in cardiopulmonary resuscitation (CPR) healthcare provider course offered by the American Heart Association.
- History and physical examination, laboratory tests and immunizations as identified in policy 3.7 (Student Health Policy).

Students must meet the essential Performance Standards as identified in Policy 1.2.1 (Section 504 Compliance). Healthcare is a practice discipline requiring abilities and skill in critical thinking and communication as well as tasks involving the psychomotor, affective, sensory and behavioral domains. Reasonable accommodations may be made for some disabilities. Any student requiring accommodation for a physical or learning disability is encouraged to disclose this to the ADA/504 Coordinator of the College following enrollment.

Any candidate not meeting these criteria may be denied admission into the program.
