

TIME COMMITMENTS FOR PRACTICAL NURSING STUDENTS 12 MONTH PROGRAM

Students who have not completed microbiology 100/221 are required to enroll in Microbiology concurrently with Nursing 100.

Time commitments for practical nursing students will vary according to the campus and the semester. In some cases the clinical experience will be scheduled during the day, as early as 6:00 am, or during the evening as late as 10:00 pm. Nursing simulation lab practice is in addition to these experiences.

The first 3 weeks of Nursing 100, you will spend your clinical time in the nursing simulation lab practicing and demonstrating proficiency in selected nursing skills Monday, Wednesday and Friday from 8 am – 3 pm. (Harrisburg, Lancaster) or Monday, Tuesday and Wednesday from 8 am – 3 pm (Gettysburg).

During the program year, all students will have to arrange times for laboratory practice of nursing skills and return demonstrations. Also, during these times, students will need to arrange times to view videos in the library and complete computer modules in the nursing computer lab.

Class assignments include extensive reading assignments for every hour of class. Plan to read and prepare for each class. Clinical assignments include several hours of prep time before each clinical day and follow-up assignments to be completed after each clinical experience.

PRACTICAL NURSING PROGRAM SAMPLE SCHEDULE

Gettysburg Campus
