

Microsoft® Office Word 2016: Part 1

Course Length: 9 hours

Overview:

These days, most people take electronic word processing for granted. While we may still write out our grocery lists with pen and paper, we expect to use a computer to create the majority of our documents. It's impossible to avoid word-processing software in many areas of the business world. Managers, lawyers, clerks, reporters, and editors rely on this software to do their jobs. Whether you are an executive secretary or a website designer, you'll need to know the ins and outs of electronic word processing.

Microsoft® Word 2016 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word 2016 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

Course Objectives:

In this course, you will learn fundamental Word 2016 skills.

You will:

- Navigate and perform common tasks in Word, such as opening, viewing, editing, saving, and printing documents, and configuring the application.
- Format text and paragraphs.
- Perform repetitive operations efficiently using tools such as Find and Replace, Format Painter, and Styles.
- Enhance lists by sorting, renumbering, and customizing list styles.
- Create and format tables.
- Insert graphic objects into a document, including symbols, special characters, illustrations, pictures, and clip art.
- Format the overall appearance of a page through page borders and colors, watermarks, headers and footers, and page layout.
- Use Word features to help identify and correct problems with spelling, grammar, readability, and accessibility.

Target Student:

This course is intended for students who want to learn basic Word 2016 skills, such as creating, editing, and formatting documents; inserting simple tables and creating lists; and employing a variety of techniques for improving the appearance and accuracy of document content.

Prerequisites: Basic computer knowledge

Microsoft® Office Word 2016: Part 2

Course Length: 9 hours

Overview:

After you master the basics of using Microsoft® Word 2016 such as creating, editing, and saving documents; navigating through a document; and printing, you're ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Course Objectives:

In this course, you will learn to create and modify complex documents and use tools that allow you to customize those documents.

You will:

- Organize content using tables and charts.
- Customize formats using styles and themes.
- Insert content using quick parts.
- Use templates to automate document formatting.
- Control the flow of a document.
- Simplify and manage long documents.
- Use mail merge to create letters, envelopes, and labels.

Target Student:

This course is designed for students who wish to use Microsoft Word to create and modify complex documents and use tools that allow them to customize those documents.

Prerequisites:

To ensure your success in this course, you should have end-user skills with any current version of Windows®, including being able to start programs, switch between programs, locate saved files, close programs, and access websites using a web browser. In addition, you should be able to navigate and perform common tasks in Word, such as opening, viewing, editing, and saving documents; formatting text and paragraphs; format the overall appearance of a page; and create lists and tables. To meet these prerequisites, you can take any one or more of the following Logical Operations courses:

- Microsoft® Office Word 2016: Part 1

Testimonials:

“Very well taught! Instructor was very enthusiastic and knowledgeable.” KC

“Instructor was very easy to learn from and interacted with each student. She always made sure we understood the lesson and stopped anytime we had questions.”

Microsoft® Office Word 2016: Part 3

Course Length: 9 hours

Overview:

Microsoft® Word 2016 enables you to do far more than simple word processing. Word includes advanced image manipulation tools, collaboration features, cross-referencing and linking tools, entry forms and data collection, security features, and tools to automate document production.

Course Objectives:

In this course, you will learn to create and modify complex documents and use tools that allow you to customize those documents.

You will:

- Use images in a document.
- Create custom graphic elements.
- Collaborate on documents.
- Add reference marks and notes.
- Secure a document.
- Create and manipulate forms.
- Create macros to automate tasks.

Target Student:

This course is intended for students who want to use advanced capabilities in Word, including image manipulation, collaboration and revision tracking, cross-referencing and linking, document security, forms, and process automation through macros.

Prerequisites: Microsoft® Office Word 2016: Part 1 and Microsoft® Office Word 2016 Part 2
