ADDENDUM #1

November 29, 2007

Re: HACC – Central Pennsylvania’s Community College
Welding Area Electrical Modifications
Midtown 1 – CCTA
Community Center for Technology and the Arts
Solicitation #08-28

From: Eastern pcm, LLC
Construction Manager – HACC
212 Locust Street, Suite 604
Harrisburg, PA 17110

To: All Plan Holders

This Addendum is hereby made part of the Contract Documents dated November 15, 2007 (RFP, Project Manual and Drawings) for the above referenced project. The provisions of this Addendum are intended to supplement the provisions of the Contract Documents and/or supersede them where contradictory thereto.

This Addendum contains changes to the requirements of the Contract Documents. Such changes shall be incorporated into the Contract Documents and shall apply to work with the same meaning and force as if they had been included in the original Contract Documents. Where this Addendum modifies a portion of a paragraph or phrase of the RFP or Project Manual, the remaining unmodified portion of the paragraph or phrase shall remain in force.

The conditions and terms of the Contract Documents shall govern work described in this Addendum. Whenever the conditions of work, or the quality or quantity of materials or workmanship are not fully described in this Addendum, the conditions of work etc. included in the Contract Documents for similar items of work shall apply to the work described in this Addendum. If no similar items of work are included in the Contract Documents, the quality of material and workmanship shall be subject to the written acceptance of the Engineer.

Item 1.1 CLARIFICATIONS

A. No Bid Bond or Performance and Payment Bond will be required for this project.

B. Welders not specified to utilize Welder Receptacles (See Note 6, E1.1) shall be hard-wired.

C. Delete Specification Section 2.01. A.3. Panel boards do not require skirts.

D. Contractor is required to obtain electrical permit and is responsible for costs.

E. Drawing E1.1: Add the following to note 15 on sheet E1.1 “Provide SO cord drops to feed new outlets in the first eight (8) welding booths. This includes both welder outlets and tool outlets.

F. Drawing E3.1: Modify Panel schedules for Panels W1 and W2 to show branch circuits for Receptacles 1 through 24 to be #12 AWG, #12 AWG N, #12 AWG GND, ¾” conduit.
G. Drawing E1.M – Add the following to note 1 on sheet E1M, "Patch holes in drywall and concrete floor where panelboard XX conduit has been removed.

H. Q: Is fire alarm interface required with the air filter (weld smoke collector)?

A: Based on the unit flowing 510 CFM air nominal, smoke detectors are not required.
