ADDENDUM #1

MARCH 6, 2010

Re: HACC, Central Pennsylvania’s Community College
RFI 10-25 Surveillance Camera Video Server System

From: HACC, Central Pennsylvania’s Community College
Thomas Fogarty, Executive Director, Procurement and Business Services
One HACC Drive
Harrisburg, PA 17110

To: All Bidders

This Addendum is hereby made part of the Request for Information No. 10-25 dated March 2, 2010 for the above referenced RFI. The provisions of this Addendum are intended to supplement the provisions and scope of work and/or supersede them where contradictory thereto.

This Addendum contains changes to the requirements of the Scope of Work. Such changes shall be incorporated into the Scope of Work and shall apply to work with the same meaning and force as if they had been included in the original Request for Information. Where this Addendum modifies a portion of a paragraph or phrase of the Scope of Work, the remaining unmodified portion of the paragraph or phrase shall remain in force.

1.1 ANSWERS TO QUESTIONS:

   a) Question: B7 states minimum of 30 days storage capacity. Storage capacity depends on the number of camera, type of camera (analog and IP), along with several other factors. Do you have an idea of how many cameras are analog and how many with be IP at each location?

   Answer: The server must support a minimum of 16 cameras, it is possible multiple servers will be needed for some locations.
b) Question: Can I assume that the RFI is about gathering information on what is available in the marketplace so suit your needs, and not about quoting a price at this time?

Answer: We are looking to define a standard video server and potential suppliers and installation providers. From the information received will be used to establish standard capabilities, requirements and costs of a Surveillance Camera Video Server System including installation and follow-on warranty / maintenance. We would like to know costs at this time.
