HACC - Central Pennsylvania's Community College
10-51 PELCO VIDEO SERVERS
REQUEST FOR BID
BID - SPECIFICATIONS

HACC has evaluated and selected Pelco servers as manufacturer of choice. During the twelve (12) month period following the award of this bid, HACC will be purchasing a combination of approximately five (5) to ten (10) servers listed below. These purchases will originate from any of our five (5) campuses – Harrisburg, Gettysburg, Lancaster, Lebanon, and York.

1) Pelco Server Model Types and Storage Specifications:

a. Pelco Hybrid DS RealVue XPress Real-Time Digital Video Recorder (DSR322000)

32 analog inputs
Up to 16 additional IP cameras
30 Days of footage at 4 cif resolution and 5 images per second
2 TB of Storage
Internal DVD burner and USB ports
External 17" LCD monitor, keyboard, and mouse provided
UPS - filter and standby for 20 minutes
IP channel licensing (Pelco and non-Pelco)

b. Pelco Hybrid DS RealVue XPress Real-Time Digital Video Recorder (DSR080500)

8 analog inputs
Up to 16 additional IP cameras
30 Days of footage at 4 cif resolution and 5 images per second
500 GB of Storage
Internal DVD burner and USB ports
External 17" LCD monitor, keyboard, and mouse provided
UPS - filter and standby for 20 minutes
IP channel licensing (Pelco and non-Pelco)

c. Pelco DS NVR Purpose Built Network Solution (DSNVR321500)

32 IP channels
30 days of storage from 4 cif to 5 megapixel resolution and 5 images per second
1.5 TB of Storage
Internal DVD burner and USB ports
External 17" LCD monitor, keyboard, and mouse provided
UPS - filter and standby for 20 minutes
IP channel licensing (Pelco and non-Pelco)

d. External RAID Arrays compatible with the models listed above (Option)

RAID 5 – Redundancy for the data (external)
RAID 10 – Redundancy for the internal OS
Hot swappable drives

2) Pelco / Vendor Service and Support:

- a) Upon the campus' request, vendor is to provide a recommendation of equipment to be installed based upon current network infrastructure, bandwidth considerations and the viability of transitioning over to IP camera technology.
- b) Vendor must provide vendor warranties for parts and labor. Upon expiration of warranties, vendor should quote an annual price of a service agreement to cover parts and labor for up to 5-years from time of purchase.
- c) Vendor must provide on-site technician for initial startup of all servers, connection of cameras to new servers (including PTZ cameras and any necessary remediation), and successful installation and setup of client software on PCs or any other outputted devices.
- d) Vendor will provide on-site training for server install administration and client install and functionality.
- e) Vendor or manufacturer must provide 24/7 technical phone support for customers including holidays and weekends.
- f) Vendor must provide four to twenty four hour response time for on-site support. On-site technical support must be provided by in-house technicians that are employed by the vendor/integrator, not sub-contractors.
- g) Vendor will have one hybrid server (minimum 32 ports, model # to be mutually agreed upon) available for all HACC campuses to share on a loan program in case server must be removed for extended repair.
- h) Minimum semi-annual notification by vendor/manufacturer for solution and/or OS vulnerability fixes/patches and assisting on-site staff with remediation.
