Explore Thailand, then create a website in WEB 102 to share your experiences and amazing journey. The adventure begins in Bangkok with a visit to the Temples and local markets. Course participants will also enjoy a daytrip to the Tiger Temple & River Kwai, and spend two weeks in a small village homestay next to the Andaman Sea learning about life in a Thai community while sharing their homes, families and culture. HACC students will teach local school children conversational English with fun learning games and activities and explore the mangroves, karsts and coral reefs that surround the area - all while staying in guest-houses and enjoying delicious Thai cuisine.
