## FROM THE OFFICE OF THE CAMPUS VICE PRESIDENT

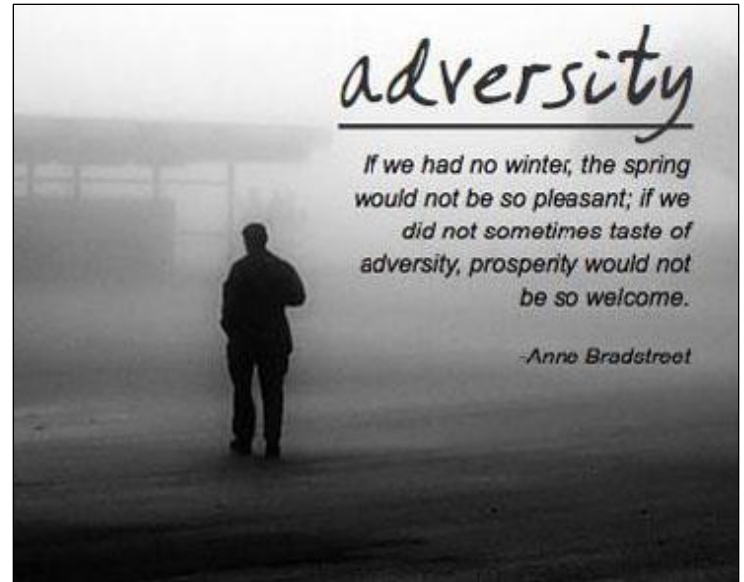

Greetings!

This quote works on a couple of different levels.

Yes, spring has arrived and each of us deserves warm days, clear skies and lots of colorful flowers for surviving this past winter. The FINAL snow on March 30<sup>th</sup> was such a bizarre event. And yet, it was eclipsed in its bizarreness by the flooding of the Cytex building that same night.

We were faced with adversity on a number of fronts when a connection broke on a pipe to the water fountains and caused the freezing of the chiller unit mounted above the ceiling in a portion of the Cytex admin office suite.

Several offices and the writing center will be impacted for the next several weeks. The community room may be out of commission a bit longer, depending on which replacement carpet tiles we select.

I've already thanked everyone connected with this event, but it bears repeating that many people in facilities, academic affairs and security responded quickly and fully to this emergency situation and the impact was minimized. For that reason, this month's DARING GREATLY award goes to the early responders: **Kathy Brickner, Kelley Engle, Levi French, Todd Greer, Margie Mattis and Matt Rose**. They clearly stepped into the arena and demonstrated teamwork at its best.

*Jean*

## COLLEGE WIDE STUDENT AFFAIRS RETREAT

March 12, 2014 was a day of teambuilding and diversity training! It was a great time to meet and interact with staff members from other campuses who do the same job! We are all in this together as shown in the picture, right.

York Welcome Center Specialist Mireya Villalobos Duran, with Scott Simonds-Gettysburg, Christy Gruber-Lebanon/Central and Allen Tischer-Central, managed to cross an imaginary river by stepping on rocks without falling in the “water”.

**What an exemplary display of teamwork.**

Bulletin Boards for Welcome Center, Counseling & Advising, and Financial Aid are located in the hallway of Leader. **Stop by and check them out.**

## COUNSELING AND ADVISING

April is Counseling Awareness Month. At HACC York, we have 4 full-time and 2 part-time master’s-level counselors to assist students with issues that are interfering with their ability to be successful. We see students struggling with issues that range from anxiety and depression to those with stressful relationships and learning challenges – and everything in between!

**Our goal is to provide short, solution-focused interventions to help students quickly gain skills and insights that will improve their academic success.** They gain coping skills that include conflict resolution, positive thinking, improved communication and decision-making.

Offices are located in the Counseling & Advising area of Leader, next to the Welcome Center. Please encourage students to come and see us if you feel they could benefit from our services. **If you have an immediate concern about a student or have any questions, please give us a call at extension 513213 or, off campus at 801-3213.**

## SAFETY AND SECURITY SAFETY TIPS

All relationships go through rough times, and for some, it can be difficult to distinguish between "going through a rough time" and abuse. Many types of abuse exist, including verbal, emotional, physical, and sexual. All types of abuse in relationships should be taken very seriously. You may be a victim of abuse if your partner:

- Becomes extremely jealous or possessive of you
- Tries to keep you away from family and/or friends
- Harms you physically
- Has a violent temper
- Tells you what to do
- Pressures you to have sex
- Criticizes or puts you down among other people
- Constantly checks up on you
- Blames abusive behavior on alcohol or drugs

For more information on this topic or for assistance in reporting abuse, contact your campus security or counseling office.

## FIRE DRILLS

It is required that a fire alarm and/or building evacuation be conducted each semester. They are an important tool for planning and practicing the orderly evacuation of a building. Fire drills prepare you in the event of a real emergency. Please review the following tips for a successful fire drill:

- When the alarm is activated, exit the building (everyone must exit the building)
- Locate the escape route map posted near the primary exit door
- Use the primary route marked on the escape route map
- Exit the building calmly and quickly but do not run
- (If applicable: Do not use the elevator)
- **The last person out of the room should turn out the lights and close the door**
- Security will notify everyone when to re-enter the building

## ASSEMBLY POINTS:

- Leader West (Vending area to student entrance): West parking lot, section after bend
- Leader East (Learning Center to front lobby): Sidewalk and grass area just before sidewalk joins w/ PA Ave walk
- CSS: CSS Lot, furthest paved section from building
- Goodling: First row of Cytec parking near tree line can also use middle of middle lot depending on nearest exit.
- Cytec: Same as Goodling - First row of Cytec parking near tree line.
- Cytec Arts / Concentra: Middle of middle lot.

## YCAL HOSTS CAREER OPPORTUNITIES DAY

Over 170 York County high school juniors and seniors attended Career Opportunities Day on Thursday, March 13 at HACC's York Campus.

The event was the culmination of the Career Opportunities Program (COPS), an in-school curriculum available to York County High School **juniors and seniors preparing to enter the professional workforce**. COPS provides students with the opportunity to work with local human resource professionals to develop knowledge and skills pertaining to job preparedness.

Students had the opportunity to attend three breakout sessions pertaining to one of the 16 National Career Clusters as well as a Soft Skills Workshop and a Post-Secondary Expo. The Expo allowed the students to interact with post-secondary institutions to help them understand their options upon graduation.

As an entity that is inextricably tied to the community, HACC, Central Pennsylvania's Community College, is happy to partner with the York County Alliance for Learning and host the annual Career Opportunities Day at our York Campus," stated Tim Barshinger, Career Services Coordinator at HACC York, **"This event serves between 150-200 high school students each year, giving them insight into careers and teaching them about the skills necessary to be successful.** It is our pleasure to be a supporter of this event, and it is central to our purpose as a community college."

YCAL, an allied entity of the York County Economic Alliance, staffed by the York County Economic Alliance's Office of Workforce Development (OWD), is a non-profit organization that works with businesses and schools to provide career education, relevant academic experiences, and work based experiences for students and educators in York County. Career Opportunities is a YCAL program offered in high schools throughout York County.

## CAREER CORNER

### *Student Stories*

---

**Eric “Dan” Meyers**, a HACC York alumnus, is currently attending Pitt for economics. He was in need of a summer internship in the York area, so he contacted our Career Services office. After applying to a number of leads suggested by Career Services, Dan was offered two internship opportunities, one of which was a paid internship that he accepted with Clark’s in Lititz.

**Brianna Weaver**, a December 2013 graduate from our nursing program, recently contacted Career Services to share that she had gotten an RN job with the Margaret Moul Home. Brianna had met representatives from that organization at the October 2013 Nursing Career Fair (held on our campus)—and she had used resume templates from Career Services to help her develop a resume. By leveraging the resources and events of Career Services, Brianna landed a job that she loves.

### *Other Career News*

---

**Call for Collaboration:** With the spring semester nearly over, Career Services is looking for opportunities to partner with faculty and staff for Summer and Fall 2014.

**In particular, I would welcome the opportunity to develop field-specific programming for your course(s).**

- *Daytime Faculty:* Could we coordinate a Lunch and Learn / event for your class (or a series of classes) that focuses on a specific topic such as preparing business students for career development?
- *Evening Faculty:* Could we arrange for a pre-class “pizza session” with an outside speaker delivering field-specific career advice to your students?
- *All Faculty:*
  - Are there topics that Career Services can *help you* present to your class?
  - **Is there a day when you will be out of class and would like Career Services to do a presentation for your students?**

## FACILITIES TIDBITS

Leader 152 video conference room will also be used as a classroom for Eastern Mennonite University on Wednesday nights for the remainder of this semester. **As the college continues to find more effective ways to meet the need for classroom space and additional technology resources, the campus is creating multi-functional spaces.** Some spaces may give the campus valuable space revenues. While this may cause a bit of a challenge in scheduling the days and times that you want a video to be held it is currently an avenue that we will pursue and we appreciate your patience as we work out all of the glitches.

Cytec 151, 152, 153, 154 will soon be the home of our Massage Therapy program. **Construction will begin in the near future to make this space into a tranquil environment where you will be able to receive a massage to facilitate clinical needs for our students.** We are very excited for this program to be at the York campus and look forward to seeing this project come to fruition.

**It is with sadness that we will be saying farewell to our tenant, Concentra.** In April they plan on moving out onto Route 30 where they will have a higher profile in their very competitive market. They have been a great tenant and we will miss them. On a positive note, we will pick up additional parking spaces for our students, faculty and staff, as a result of this vacancy.

**Earth Day is April 22.** This year's theme is 'Green Cities', do you know what you can do to help?

- Plant a tree, a garden, clean-up your neighborhood, or perhaps just your yard, maybe install a low-flow showerhead, or an LED light-bulb? *Every small act will make a difference, combined we can change our world.*

### Earth Day Fun Facts:

- Earth Day was established on April 22, 1970 when Americans, over 20 million of them, demonstrated for a healthy environment; as a result of this event the U.S. Environmental Protection Agency was created.
- Over 1 billion people, from across all walks of life, world-wide are expected to participate in Earth Day events in 2014.
