The Economic Value
Of the HACC Harrisburg Campus

September 2015

The HACC Harrisburg Campus (HACC Harrisburg) creates a significant positive impact on the business community and generates a return on investment to its major stakeholder groups—students, society, and taxpayers. Using a two-pronged approach that involves an economic impact analysis and an investment analysis, this study calculates the benefits to each of these groups. Results of the analysis reflect Fiscal Year (FY) 2013-14.

Impact on Business Community

During the analysis year, HACC Harrisburg and its students added $401.6 million in income to the Harrisburg area economy (defined as Cumberland, Juniata, Dauphin, Perry, and Schuylkill counties), approximately equal to 1.0% of the Gross Regional Product. The economic impacts of HACC Harrisburg break down as follows:

Operations spending impact

- HACC Harrisburg employed 1,687 full-time and part-time employees in FY 2013-14. Payroll amounted to $51.2 million, much of which was spent in the Harrisburg area to purchase groceries, clothing, and other household goods and services. The college spent another $45.1 million to support its day-to-day operations.
- The net impact of college payroll and expenses in the Harrisburg area during the analysis year was approximately $60.7 million in added income.

Impact of student spending

- Around 24% of students attending HACC Harrisburg originated from outside the region. Some of these students relocated to the Harrisburg area and spent money on groceries, transportation, rent, and so on at regional businesses.
- The expenditures of students who relocated to the region during the analysis year added approximately $1.6 million in income to the economy.

Alumni impact

- Over the years, students have studied at HACC Harrisburg and entered or re-entered the workforce with newly-acquired skills. Today, thousands of these former students are employed in the Harrisburg area.
- The accumulated contribution of former students currently employed in the regional workforce amounted to $339.2 million in added income during the analysis year.

JOBS BASED ON INCOME

These jobs represent full- and part-time jobs that would not have occurred in the region without the college. They are calculated by jobs to sales ratios specific to each industry. Based on the added income created by HACC Harrisburg, the jobs are as follows:

Operations spending impact = 1,780 jobs
Impact of student spending = 32 jobs
Alumni impact = 5,108 jobs

Overall, the added income created by HACC Harrisburg and its students supported 6,919 jobs.

RETURN ON INVESTMENT TO STUDENTS, SOCIETY, AND TAXPAYERS

Student perspective

- HACC Harrisburg’s 2013-14 students paid a total of $39.7 MILLION to cover the cost of tuition, fees, books, and supplies. They also forwent $142 MILLION in money that they would have earned had they been working instead of learning.

- In return for the monies invested in the college, students will receive a present value of $386.1 MILLION in increased earnings over their working lives. This translates to a return of $2.10 in higher future income for every $1 that students invest in their education. The average annual return for students is 10.7%.

Social perspective

- Society as a whole in Pennsylvania will receive a present value of $1.5 BILLION in added state income over the course of the students’ working lives. Society will also benefit from $43.5 MILLION in present value social savings related to reduced crime, lower unemployment, and increased health and well-being across the state.

- For every dollar that society spent on HACC Harrisburg educations during the analysis year, society will receive a cumulative value of $6.00 in benefits, for as long as the 2013-14 student population at HACC Harrisburg remains active in the state workforce.

Taxpayer perspective

- In FY 2013-14, state and local taxpayers in Pennsylvania paid $34.4 MILLION to support the operations of HACC Harrisburg. The net present value of the added tax revenue stemming from the students’ higher lifetime incomes and the increased output of businesses amounts to $119.1 MILLION in benefits to taxpayers. Savings to the public sector add another $11.6 MILLION in benefits due to a reduced demand for government-funded services in Pennsylvania.

- Dividing benefits to taxpayers by the associated costs yields a 3.8 benefit-cost ratio, i.e., every $1 in costs returns $3.80 in benefits. The average annual return on investment for taxpayers is 14.0%.
