Part of my role is to cultivate an environment of inclusive excellence here at the college. And that means developing an aspect of trust between every individual that calls HACC home.

The fund for Inclusive Excellence will provide an opportunity for HACC to continue to cultivate the kinds of

that really will push us past anywhere our aspirations can take us around culture.

It'll allow us to serve as a centerpiece for

programming, for

social gatherings, for community gatherings,

for large-scale speakers.

This is really going to tell the college, tell the entire community

that this is important to us. Your differences are valued here.

where you want to donate your funds,

as you think about where you want to place your resources I hope you'll consider

the Fund for Inclusive Excellence simply because

[Cut to photo of two welding students smiling into the camera]

WARREN VO

it is a fund that's going to ensure that

WARREN VO

those that come in, who feel

WARREN VO

different because they are different, who feel as if

WARREN VO

they have never had a chance or they've had to face barriers simply because of who they are,

[Cut to photo of five students posing with a "LGBT CLUB" banner, smiling into the camera]

WARREN VO

this fund is going to allow us to really cultivate an environment where regardless

of where you come from, regardless of what you have, regardless of what you've done in your past life, this is a place where you can begin to build that foundation for greatness.
