

Nursing Fund for Excellence

HACC, Central Pennsylvania's Community College, offers a Nursing Program that is approved by the Pennsylvania State Board of Nursing and is fully accredited by the Accreditation Commission for Education in Nursing (ACEN). We are committed to providing a Nursing Program that is dynamic and provides a concept-based nursing curriculum taught by faculty who are experts in their field.

With YOUR help, the students enrolled in HACC's Nursing Program could benefit from the most innovative equipment and programs like:

Enhanced patient education resources and technology in the Nursing Care Center

Simulation mannequins, including birthing mannequins

Enhanced simulation instructional space

Design and installation of a 40-seat computer lab for nursing students

HACC has remained on the cutting edge in nursing programs, but the technology in this field is constantly changing. YOU can provide students with the most innovative equipment and training by visiting hacc.edu/GiveNow to make a gift to the Nursing Fund for Excellence.

For more information, please contact the HACC Foundation at foundation@hacc.edu.

"I graduated a ready and safe nurse. I went straight into the ICU as a new RN and was fully prepared to do so. The reason for this was the caliber of instructors that I had at HACC. As I went through nursing school, I was fully aware that I was learning from some of the most intelligent, professional and capable women and men I would ever have the pleasure of encountering. I received a solid education with a lot of encouragement, challenge and guidance on the journey."

-Lora Kelly, HACC Alumnus
