

May 4, 2020

Good Morning,

You are receiving this email because you have Cardiac Sonography or Invasive Cardiovascular Technology listed as your major or you have expressed interest in these programs. If you are no longer interested in Cardiac Sonography or Invasive Cardiovascular Technology, please disregard the rest of this email.

As you know, we have come upon challenging times with the Covid-19 pandemic. Pennsylvania continues to remain under the "Stay At Home" order from the Governor. Although the college is open and offering classes remotely, the physical campuses are closed through the summer semester. Students are not permitted on clinical site premises for safety reasons. This has halted our instruction of on campus lab and clinical.

Unfortunately, our current students of which there are two cohorts, will need to make up lost time once the campuses and clinical sites are open to students in order for them to graduate. Due to this make-up clinical time that is needed there will not be enough clinical slots at our affiliated healthcare facilities for the immediate future.

It is with deep sorrow that we must tell you that we will not be accepting a new cohort of students for the CVT programs in the fall 2020. The Pre-application information sessions scheduled on March 30 and April 9, 2020 will not be rescheduled. The next one will be in spring 2021.

We hope that you will continue to pursue this rewarding career next year and apply to a CVT program fall 2021. As of this email, the admission criteria will remain the same next year. Continue to check your hawkmail for updates this fall and next spring.

We suggest you also meet with your advisor to review your educational plan. If you are not taking developmental courses, are ready to apply and would like to schedule an advising appointment with a CVT faculty advisor, please contact Tami at tlburkho@hacc.edu.

We wish you continued health and well-being,

Kristy, Pam and Stephany
