

Surgical Technology

People don't realize that surgical technology is an option everybody thinks, oh, I have to be a nurse to work in the hospital.

Surgical technology is that a high demand career field.

Surgical technology is any kind of surgery.

We do everything from orthopedics to open heart surgeries.

Eyes to feet to brains to heart.

To peripheral vascular to Gyn surgeries.

They get you really comfortable and prepared to go into the OR.

We had to do over a thousand hours of clinicals before we can graduate.

It prepares you for the real world.

You gotta give HACC a chance, it's a great opportunity.
