This Addendum is hereby made part of the Request for Bid No. RFB12-09 dated January 25, 2012. The provisions of this Addendum are intended to supplement the provisions and scope of work and/or supersede them where contradictory thereto.

### ANSWERS TO QUESTIONS:

**QUESTION:** My question is what is the size of the area to be brush hogged? The aerial view has all areas outlined in red and there are no notes stating what is mowed and what is brush hogged.

**ANSWER:** The area to brush hogged runs along the stream running through the middle of the property behind the two educational buildings. Some areas along the stream will require brush hogged with some of the area mowed. The estimated area to be brush hogged will be approximately 1200 feet long and 1 foot wide which represents both sides of the stream.

**HACC is replacing the aerial map with a more detailed map with greater defined mowing area lines. You may access this new map by going to the following link on HACC's webpage under RFB12-09 Lawn Care – Lancaster Campus:**
