To: All Bidders

This Addendum is hereby made part of the Request for Bid No. RFB13-06 dated September 24, 2012. The provisions of this Addendum are intended to supplement the provisions and scope of work and/or supersede them where contradictory thereto.

QUESTION

Question 1: We are looking for an exception for item 15 on page 6. Based on the timeline presented in the proposal, we are looking for an exception to use sub-contracted labor for the physical installation. This sub-contractor has worked directly with us for 5 years and has done classroom installations similar to the installation at HACC at other higher education institutions in PA. We can provide references for those installations. Project management, engineering, documentation and commissioning would be done by direct employees. We will warranty the installation as our own.

Answer 1: As #15 states we will accept no subcontractors "except as stated in advance and included clearly in writing..." HACC will accept a sub-contractor providing the vendor submitting the bid provide in the bid response the work experience and references; the site installation crew has a minimum of three years in the industry and carry some level of certification.
