Amazing food, international culinary classes, architecture and culture are just some of the highlights of this packed culinary and cultural experience.

We will start our time in Spain with visits to Madrid, Toledo and Salamanca. Students will be treated to tours and tastings at a manchego cheese producer, an olive oil producer and an Iberian pig farm. We will immerse ourselves in Spanish culture through a cooking and wine class with a Spanish chef, visits to museums and local markets and a Flamenco show.

Following our time in Spain, we will travel to Portugal to visit a winemaker and participate in a culinary class at the vineyard. We will embark on a river cruise, visit local markets and museums and round out the experience with a group dinner and Fado show.
