

PHYSICIAN OFFICE ASSISTANT, Certificate – (Noncredit)

Healthcare Education - Office of Academic Affairs & Workforce Development

CIP Code: 520408

The Physician Office Assistant (POA) educational course prepares the student for an entry-level position in an outpatient healthcare setting such as a medical practice or health-related call center. Students will become familiar with a general workflow of an outpatient medical practice. Critical thinking concepts and customer service skills and activities are infused throughout the curriculum, as will generational and cultural diversity, where appropriate. This course will prepare the student to sit for the Certified Medical Administrative Assistant (CMAA) certification exam through National Healthcare Association (NHA). Students have the choice to take their coursework entirely through asynchronous instruction or synchronous remote instruction.

Career Opportunities

Prepares the student for work in an entry level position in the front office of a healthcare practice or in a healthcare facility.

Competency Profile

This curriculum is designed to prepare students to:

- Discuss the United States health care delivery system
- Recognize the fundamental principles of healthcare law and ethics including HIPAA and ACT 13
