MATHEMATICS, Associate in Science Degree - 4076

Mathematics & Computer Science Department
CIP Code: 27.0101

The Mathematics AS degree prepares students to transfer to four-year institutions offering degrees in mathematics, operations research, and statistics. Since the requirements of senior institutions vary widely, it is essential to choose an intended transfer institution as soon as possible and carefully follow the program described in that college's catalog. The complete program is available at the Harrisburg, Lancaster and York campuses provided students take some of their required coursework through multiple modalities (e.g. Blended, Online and/or Remote Learning).

Transfer Opportunities
This transfer curriculum is provided as a guide for students planning to transfer to a baccalaureate degree granting institution.

Competency Profile
The curriculum is designed to prepare students to:
- Analyze and apply mathematical concepts and their connection between multiple representations
- Develop mathematical models, analyze data and create or apply algorithms to solve problems
- Explain mathematical ideas and justify them formally
- Employ technology to assist in problem solving

PROGRAM REQUIREMENTS (TOTAL CREDITS = 60)
