

CRIMINAL JUSTICE, Associate in Arts Degree - 6050

Social Science Department
CIP Code: 43.0103

The Criminal Justice AA degree is designed for students intending to pursue careers in law enforcement, correctional rehabilitation, juvenile and adult probation and parole, private security and investigations, forensic science, military police, and criminology. This program may require the student to submit to Act 33 Child Abuse and/or Act 34 Pennsylvania State Police Criminal Background Checks prior to enrollment in an internship course. Since the requirements of senior institutions vary widely, it is essential to choose an intended transfer institution as soon as possible and carefully follow the program described in that college's catalog. This program may be completed at all of HACC's campuses through various modalities (e.g., on-campus/in-person instruction, hybrid, synchronous remote instruction and/or asynchronous instruction).

Career or Transfer Opportunities

Career opportunities are dependent upon the curriculum option chosen. Many graduates are engaged in careers as criminal investigators, patrol officers, drug agents, prosecuting attorneys, private criminal and civil attorneys, probation and parole officers, correctional counselors, security managers, private investigators, undercover investigators, crime-scene technicians, forensic scientists, crime-lab experts, and other positions in municipal, state, federal, and private agencies.

Competency Profile

This curriculum is designed to prepare students to:

- Demonstrate an awareness of professional ethics including ethical and legal entrance requirements to the criminal justice
- Translate observations into writing
- Use technology as a form, or method, to conduct research
- Describe components of the criminal justice system including corrections, courts, law enforcement, and the private sector
- Examine diversity issues as they impact criminal justice
- Demonstrate an awareness of the dynamics of organizational behavior
- Manage and build teams
- Analyze problems and develop solutions
